Dear Fellow Concerned Citizens and Friends:

So much has been happening to support our No2Rivian cause that it's hard to believe how far we have come in such a short time, but here's a try:

1. There is a group in The Netherlands who are experiencing a similar Rivian threat in their Sterrebos Forest area northeast of Amsterdam. We are giving each other mutual moral support and publicity.

2. The Rivian plant announced for our Georgia area is so big in comparison to every other industrial plant that has ever been built in Georgia that its size is almost incomprehensible. We are preparing some size comparisons to send to you soon to show you what we mean.

3. We are undertaking to get coverage for our efforts in the largest nationwide newspapers including *The New York Times*, *The New York Post*, *The Wall Street Journal*,

and *Bloomberg News*. If you have contacts at any of these outlets, please let us know so we can provide them with information.

4. Our Facebook page continues to experience volumes of additional information and comment. We now have a hashtag: #No2Rivian

5. We have already raised almost \$160,000 toward our goal of \$250,000 to help pay for lawyers and other expenses. Please go to GoFundMe directly or to our website at No2Rivian.org and click on DONATE NOW. Thank you.

No2Rivian.org

6. Georgians in our area are usually averse to bumper stickers, but we are seeing more and more like the one shown above.

7. We have posted four positive alternatives to this Rivian plant in our wonderful Georgia paradise.

8. We have discovered that Rivian and The Nature Conservancy are rank hypocrites. They mouth nonsense about being in favor of "land conservation", "biodiversity", and "protecting what we love". They brag about saving the "Nachusa Grasslands, owned and operated by The Nature Conservancy just a few hours away from the Rivian plant in Normal, Illinois, [that] spans 3,800 acres of prairie, woodlands and wetlands". Yet they think nothing about destroying our 2,000 acres of pastures, farms, ponds, acquifers, and wildlife surrounded by our exquisite small towns and rural life. Click here to see what we mean.

9. For further details on Rivian's plans via a plant that is going to be FIVE TIMES BIGGER than Rivian's plant in Illinois shown in the photo above---and how you can help to stop the JDA and Rivian---[please click here to go to our website: No2Rivian.org](http://No2Rivian.org)

10. Please click here to [contact us](#) with your suggestions and comments.

Yours sincerely,
